From: Connie Kracher, Chair of the Department of Dental Education
Re: DAST A172 Clinical Science II credit hour change

Our Dean asked that departments and programs in our College evaluate current credit hour equivalents for laboratory and clinical courses. After evaluating each of the program courses, the Program of Dental Assisting found that we were not granting the correct number of credit hours based on the number of hours students were required to complete for accreditation. The DAST A172 Clinical Science II course is an extramural experience that includes a one hour lecture and 300 patient care clinical hours at extramural dental office sites required by the American Dental Association Commission on Dental Accreditation (CODA).

The current credit hours for the course is 6 credit hours. After evaluation of patient care hours, it was determined that the course needed to be increased to 7 credit hours. We ask for the credit hour change to be effective Spring, 2009. However, we understand that it may take longer becoming effective Spring, 2010.

Thank you.
