**PURDUE UNIVERSITY**
REQUEST FOR ADDITION, EXPIRATION, OR REVISION OF A GRADUATE COURSE
(500-699 LEVEL)

DEPARTMENT: Nursing  EFFECTIVE SESSION: Spring 2010

**INSTRUCTIONS:** Please check the items below which describe the purpose of this request.

- [x] 1. New course with supporting documents (complete proposal form)
- 2. Add existing course offered at another campus
- 3. Expiration of a course
- 4. Change in course number
- 5. Change in course title
- 6. Change in course credit type
- 7. Change in course attributes
- 8. Change in instructional hours
- 9. Change in course description
- 10. Change in course requisites
- 11. Change in semesters offered
- 12. Transfer from one department to another

**PROPOSED:**
- Subject Abbreviation: NUR
- Course Number: 570
- Long Title: Women’s Health Clinical Practicum II
- Short Title: Women’s Health Pract II

**EXISTING:**
- Subject Abbreviation
- Course Number
- Long Title
- Short Title

**TERMS OFFERED:*** Check All That Apply:

- [x] Summer
- [x] Fall
- [x] Spring

**CAMPUS(ES) INVOLVED:**
- Calumet
- Cont Ed
- Ft. Wayne
- Tech Stelwien
- Indianapolis
- N. Central
- W. Lafayette

Abbreviated title will be entered by the Office of the Registrar if omitted. (32 CHARACTERS ONLY)

**COURSE DESCRIPTION (INCLUDE REQUISITES):**

P: NUR 556 C: NUR 569
Assists students to develop and broaden clinical judgment and skills in the care of low risk pregnant women. Content includes the care of the pregnant women in ambulatory health settings and the impact of the pregnancy on the woman's intimate support system. Focus is on the differential diagnosis, clinical decision making and management, as well as patient and family education. Professional issues, collaboration, scope of practice, ethics, and advocacy are emphasized.

OFFICE OF THE REGISTRAR
Proposal for New Graduate Course

Contact information if questions arise

Course Number: NUR 570

Course Title: Women's Health Clinical Practicum II

A. Justification for the Course
   □ Explain how this course relates to other courses offered in the department or other departments and how this course fulfills a recognized need.

   This course is intended primarily for students

B. Level of the course:
   □ Justify request for graduate course level by indicating anticipated enrollments of undergraduate and graduate students.
   Anticipated Undergraduate Student Enrollment:
   Anticipated Graduate Student Enrollment:

C. Prerequisites: (If none, please explain reasons for absence)

D. Course Instructor:
   □ Instructor's Name

E1. Course Outline:
   □ An outline of topics to be covered and an indication of the relative emphasis or time devoted to each topic is necessary. If laboratory or field experience is involved, the nature of this component should be explained as well.

E2. Method of Evaluation or Assessment:

F. Reading List:
   □ A reading list or bibliography should be limited to material the students will be required to read in order to successfully complete the course. It should not be a compilation of general reference material.
Course Subject Abbreviation and Number: NUR 570

Course Title: Women's Health II Clinical Practicum

A. Justification for the Course:

Explanation of the need for the course: The Women’s Health nurse practitioner must have a clinical practicum in which to learn and refine the hands on skills learned from the didactic obstetrical care course. This course allows the student to combine the pharmacotherapeutics, planning of care and treatment to the low risk pregnant woman in a supported environment with a preceptor. A course that includes clinical preceptorship is required by accrediting agencies. For the Women’s Health Nurse Practitioner (WHNP) the requirement is 600 hours of direct patient care.

Contribution of the course to existing fields of study: This is the second of two clinical practice experiences, overseen by a preceptor and the faculty, that prepares the student for the role of women’s health nurse practitioner.

This course is intended primarily for students (choose one):
- X From within this department
- □ From other departments

B. Learning Outcomes and Method of Evaluation or Assessment:

Course Requirements:

1. Case Study – 15%
   Sign up for a case study related to a client with an interesting obstetrical diagnosis. There will be 15 minutes allowed for the case presentation. The case study must be distributed 1 week ahead of time. (It is suggested the study be no more than 15 slides per presentation).
   Criteria for Case Study are as follows:
   - The case study is related to the assigned condition/problem and a specific client seen during your clinical practicum.
   - The theoretical/conceptual framework that you have applied to the case study is identified and is integrated throughout the presentation.
   - The case includes appropriate, evidence-based screening tests/methods and treatment as well as information on the actual/potential results of screening exams.
   - The case includes a list of appropriate diagnoses and evidenced-based interventions.
   - The case includes rationale for the treatment plan.

   Due Date: TBA. Remember – you must distribute a print copy of your case study in class at least one week prior to the presentation. See attached Grading Tool.

2. Clinical Journal – 20%
   The purpose of the clinical journal is to allow the faculty member to follow and evaluate your clinical progress. The journal is evaluated on the presence and quality of the following criteria (see also Weekly Journal Format and Clinical Journal Criteria and Evaluation Tool). The Weekly Journal Format includes everything that you must include on a weekly basis in your journal. A copy of the format is attached. (Please note you can add additional space to any section as needed. This form will keep your journal records organized by weeks.)
   **Please remember that before you submit your journal to your instructor, you must have your clinical preceptor sign off on your journal in order to verify clinical hours and patient encounters.

   Your weekly clinical journal entries should include the following:
a. **Documentation of actual clinical experience.** Document each client encounter. Include the following information: confidential client identifiers, chief complaint/subjective and objective data, nursing and medical diagnoses, screening, and treatment plan. Include client education and meds.

b. **SOAP Notes.** One SOAP note is required each time you submit your clinical journal. The notes must be related to your clinical experiences and should include generalized history and physical exam and one focused visit. Evaluation of SOAP notes will be based on organization, completeness of objective and subjective data, nursing and medical diagnoses, a management plan with rationale that addresses actual and potential health problems, inclusion of Health Promotion screening and teaching, and follow-up.

c. **Clinical & Personal Objectives.** (See also Clinical Evaluation Form to be filled out by both your faculty member and your preceptor. Your tentative personal objectives must be submitted to your faculty member the first week of class. These objectives may evolve as you begin your clinical practice. You are responsible for making sure that your faculty member has approved your personal goals before giving both a copy of the course objectives and your finalized personal goals to your clinical preceptor. You should document your progress toward fulfilling your personal and course objectives/goals each week in your journal and should include examples of activities in your clinical setting to support your claims.

**Be sure that your preceptor has a copy of your personal and course goals, as well as any changes in your personal goals.

d. **Weekly Observations/Self-Reflection.** Each week you are to record your observations and reflections about healthcare delivery used in your clinical sites; access to care issues; relationships among staff, including relationships between APNs and other nursing, medical, and clerical staff; or any other issues you’d like to discuss. These will not be shared with your preceptors or faculty outside the course, but may be useful to discuss with other students in class as well as to increase your ability to evaluate different systems of provision of health-care. This is a confidential section of your log, to be shared with your instructor.

Due Dates: Logs will be turned in at each Seminar.

3. Clinical Performance 40%
   Consisting of:
   - Preceptor evaluation
   - Instructor evaluation
   - Student evaluation

4. Seminar participation 15%

5. E-portfolio Submission 10%
   Using the information gathered from the course, the student will determine a category from the terminal objectives and write the rationale for item inclusion based on one of this classes projects. This will be submitted to the faculty for review and comment and then included in the student’s e-portfolio document.

Identify methods of instruction
- Lecture
- Recitation
- Presentation
- Laboratory
Level of the Course:
Justify the level of the proposed graduate course including statements on, but not limited to, the target audience, rigor of the course, and expected learning outcomes.

Nursing 570 is directed at the graduate nursing student who has also enrolled in Nursing 569. The student in this class has determined that the area of specialization is in the Women’s Health nurse practitioner role. It is expected that students produce work that is high quality and scholarly.

Indicate the anticipated number of undergraduate and graduate students who will enroll in the course. 10

Prerequisites:
List prerequisite courses by subject abbreviation, number, and title. Nur 565, Women’s Health I, NUR 569 Women’s Health Practicum I
List other prerequisites and/or experiences required. Graduate of an accredited nursing program with a 3.0 GPA; Licensed to Practice in Indiana;
If no prerequisites-explain their absence.

Course Instructor:
Deborah Baresic RN, MS, WHNP-BC
Assistant Clinical Professor
Indiana University Purdue University Parkview Depat of Nursing

Is the instructor currently a member of the Graduate Faculty? x yes ___ no
Deborah Baresic

Reading List:

Library Resources:
Students will be completing a case study which will require library searches. They may need assistance from the librarian

Course Syllabus: attach at this point.
Course Number and Title: NUR 570 Women’s Health Clinical Practicum II

Pre-or Corequisite: P: NUR 566 C: NUR 569

Course Credits and Hours: Credits: 3  Lecture: 0  Clinical: 3 (210 hrs) and Seminar: 15 hrs

Faculty: Deborah Baresic RN, MS, WHNP-BC

Required Textbooks:

Course Description:
Assists students to develop and broaden clinical judgment and skills in the care of low risk pregnant women. Content includes the care of the pregnant women in ambulatory health settings and the impact of the pregnancy on the woman’s intimate support system. Focus is on the differential diagnosis, clinical decision making and management, as well as patient and family education. Professional issues, collaboration, scope of practice, ethics, and advocacy are emphasized.

Course Objectives:
Upon successful completion of this course, the student is able to:
1. Apply appropriate diagnostic modalities in assessing the healthcare needs of the pregnant woman and her child.
2. Synthesize clinical data to formulate, implement, and evaluate care of clients and their families.
3. Develop culturally; sensitive plans of care that reflect mutually derived health priorities, goals, and interventions
4. Employ appropriate standards of practice in the management of the pregnant woman.
5. Implement evidence-based research interventions to assist the pregnant woman with developmental changes, illnesses, ethical, and social/environmental problems.
6. Utilize community resources in the primary care of pregnant adolescents and women.
7. Integrate the teaching-coaching role into the management of pregnancy.
8. Analyze the collaborative role and scope of practice of the Adult Nurse Practitioner in the management of pregnant adolescents and women.
9. Address the unique needs of the rural population in the provision of care to adolescents and adult women.

Course Outline:
1. Clinical experience at assigned agency with appropriately prepared Nurse Practitioner or Physician for a total of 210 hours
2. Seminar Case Study presentations on current topics identified in clinical agency (15 hours)

Methods of Instruction:
Preceptorship with practicing Women’s Health Nurse Practitioner, Nurse Midwife, or Physician in a clinical setting for a total of 210 hours

Course Requirements:
1. Case Study 15%
   Sign up for a case study related to a client with an interesting obstetrical diagnosis. There will be 15 minutes allowed for the case presentation. The case study must be distributed 1 week ahead of time. (It is suggested the study be no more than 15 slides per presentation).
   Criteria for Case Study are as follows:
   • The case study is related to the assigned condition/problem and a specific client seen during your clinical practicum.
   • The theoretical/conceptual framework that you have applied to the case study is identified and is integrated throughout the presentation.
   • The case includes appropriate, evidence-based screening tests/methods and treatment as well as information on the actual/potential results of screening exams.
   • The case includes a list of appropriate diagnoses and evidenced-based interventions.
   • The case includes rationale for the treatment plan.

   Due Date: TBA. Remember -- you must distribute a print copy of your case study in class at least one week prior to the presentation. See attached Grading Tool.

2. Clinical Journal – 20%
   The purpose of the clinical journal is to allow the faculty member to follow and evaluate your clinical progress. The journal is evaluated on the presence and quality of the following criteria (see also Weekly Journal Format and Clinical Journal Criteria and Evaluation Tool). The Weekly Journal Format includes everything that you must include on a weekly basis in your journal. A copy of the format is attached. (Please note you can add additional space to any section as needed. This form will keep your journal records organized by weeks.)

**Please remember that before you submit your journal to your instructor, you must have your clinical preceptor sign off on your journal in order to verify clinical hours and patient encounters.

Your weekly clinical journal entries should include the following:
a. **Documentation of actual clinical experience.** Document each client encounter. Include the following information: confidential client identifiers, chief complaint/subjective and objective data, nursing and medical diagnoses, screening, and treatment plan. Include client education and meds.

b. **SOAP Notes.** One SOAP note is required each time you submit your clinical journal. The notes must be related to your clinical experiences and should include generalized history and physical exam and one focused visit. Evaluation of SOAP notes will be based on organization, completeness of objective and subjective data, nursing and medical diagnoses, a management plan with rationale that addresses actual and potential health problems, inclusion of Health Promotion screening and teaching, and follow-up.

c. **Clinical & Personal Objectives.** (See also Clinical Evaluation Form to be filled out by both your faculty member and your preceptor. Your tentative personal objectives must be submitted to your faculty member the first week of class. These objectives may evolve as you begin your clinical practice. You are responsible for making sure that your faculty member has approved your personal goals before giving both a copy of the course objectives and your finalized personal goals to your clinical preceptor. You should document your progress toward fulfilling your personal and course objectives/goals each week in your journal and should include examples of activities in your clinical setting to support your claims.

**Be sure that your preceptor has a copy of your personal and course goals, as well as any changes in your personal goals.

This is a confidential section of your log, to be shared with your instructor.

**Due Dates: Logs will be turned in at each Seminar.**

3. **Clinical Performance**
   Consisting of:
   - Preceptor evaluation
   - Instructor evaluation
   - Student evaluation

4. **Seminar participation**

5. **E-portfolio Submission**
   Using the information gathered from the course, the student will determine a category from the terminal objectives and write the rationale for item inclusion based on one of this classes projects. This will be submitted to the faculty for review and comment and then included in the student’s e-portfolio document.
Department Announcements:

Communication
The official university communication is by IPFW e-mail using the university student E-mail address. E-mail includes information sent to the nursing listserv. Students’ must maintain the mailbox, including sufficient space to receive e-mails. Students are responsible for information sent via e-mail.

Services for Students with Disabilities
If you have a disability and need assistance, special arrangements can be made to accommodate most needs. Contact the Director of Services for Students with Disabilities (Walb, room 113, telephone number 481-6658), as soon as possible to work out the details. For more information, please visit the web site for SSD at http://www.ipfw.edu/ssd/

Classes in the nursing program will be canceled:
A. At all instructional sites if IPFW is officially closed by the administration of the university, or
B. At the practicum or clinic site if it is closed by officials of that institution.
Decisions to close IPFW and practicum/clinic sites are left to the chief administrators of those respective facilities. In the event of inclement weather, listen to local radio or television announcements, go to www.ipfw.edu (a notice will appear at the top of the page), or call the campus weather emergency number, 481-6050 or 481-5770 for a recorded message.

Plagiarism
According to the American Psychiatric Association (2001), plagiarism is the representation of another author's work as your own. Additional clarification of plagiarism is found in the following statements, from the American Psychological Association (2001):

Quotation marks should be used to indicate the exact words of another author. Each time you paraphrase another author (i.e., summarize a passage or rearrange the order of a sentence and change some of the words), you will need to credit the source in the text. The key element of this principle is that an author does not present the work of another author as if it were his or her own work (p.349).

The Plagiarism Policy of the nursing department indicates that any student who plagiarizes has committed academic dishonesty and misconduct which may lead to dismissal from the program or college. Any student, who has been identified to have plagiarized will receive a zero for that assignment.

Graduate Grading Scale:

90 – 100   A
80 – 89    B
70 – 79    C
Below 70   F

Resources:
Resources available at IPFW are found on the IPFW website. A few resources are listed below.

The Writing Center at IPFW (http://www.ipfw.edu/casa/writing/)
You can improve your writing for any class by discussing your writing with a knowledgeable peer writing consultant in the Writing Center, Kettler G19. The staff will help you brainstorm, develop, and organize your ideas, work on issues of meaning and style, and learn to polish and edit your final draft. The Center is not a proofreading service; improving your writing takes time. To get the most from your visits: (a) sign up on the board outside KT G19 for 30 or 50 minute free appointments; (b) bring assignment, due dates, questions, ideas, and draft (if you have one); come early in the writing process, and (d) come regularly.

The Online Learning Environment

To participate in an on-line course you must have Internet access. Before you start your course, it is expected that you are proficient with using basic Internet functions, such as using e-mail, searching the Web and using browsers. If you do not have a home computer and access to the Internet, you may use the IPFW student labs with a proper user ID, your local public library or a designated learning center, which are located around the state of Indiana.

To know the technical needs for using the IPFW Online Learning Environment, you can access this information at: http://www.ipfw.edu/dlearning/technical.shtml
